ALBANY and DECATUR
TWO BEST TOWNS IN
NORTH ALABAMA
—Watch Them Grow—

VOL. 8; NO. 126.

DEVOTED TO THE INTERESTS AND UPBUILDING OF ALBANY, ALABAMA, AND DECATUR, ALABAMA.

ALBANY, ALABAMA, WEDNESDAY, JULY 23, 1919.

PRICE FIVE CENTS

BILL REGULATING AIR NAVIGATION INTRODUCED IN SENATE

LOCALS "BLOW UP" AND FARCE GAME GOES TO VISITORS

"STAGE FRIGHT" OVERCOMES
HOME TALENT IN THE IN-
TIAL FRAME.

Seven Scores Are Made

BASS, SUCCEEDING BARNES IN
SECOND, WORKS WELL AF-
TER GETTING WARMED UP.

(By BARRETT SHELTON.)

Recovering from their stinging de-
feat of Monday, the fast Lawrence-
burg baseball team, strengthened
both at the bat and in the field by
the addition of new players, handed
the Albany-Decatur outfit a 11 to 0
trouncing in a slow and uninteresting
game on the local diamond Tuesday.
Coke, who was on the mound for the
visitors, was hard for the locals to
solve and only gave up three safe-
ties. Two of these hits were credited
to Roberts, one a single and the other
for two sacks in the eighth inning.
Erwin got the other in the second in-
ning, a single.

The Tennesseans greeted Barnes,
who was on the firing line during the
first inning, with innumerable in-
field and outfield bingles, one of these,
a triple by Marbet, clearing the
bags. As the storm lifted the scorer
put up a total of seven runs, coupled
with eight hits, and this took all the
steam out of the defenders. Bass took
up the hurling in the second inning
but fared little better than had his
predecessor during that round. The
invaders ran wild on the paths, get-
ting two runs and three hits this time.
Bass went into the game unexpectedly
and was not at his best, but man-
aged to hold the visitors in check un-
til the end of the game. The Albany-
Decatur infield was slow and made a
number of errors which explains sev-
eral of the counters that the visitors
put over. Coke struck out eight and
Bass whiffed four. Each issued a
free pass.

The Albany-Decatur team after
today's game will journey to the Ten-
nessee hamlet for a series of three
contests. The Lawrenceburg outfit
will return here August 7, 8 and 9
for a three day stay.
Barnes will probably hurl again
this afternoon and try and take the
series from the visitors, which has
proved impossible up to this time.
The overwhelming defeat of the lo-
cals was attributed largely to the fact
that they became overheated in the
Monday's game, the first they had
played in more than ten days, and to
their lack of seasoning. Barnes, too,
had never pitched to Steadman, and
the big box man was for this reason
at a disadvantage.

First Inning
Allesio beat out an infield hit to
third, Brownlow was safe on an in-
field hit, Allesio going to second.
Smith safe on infield hit, both run-
ners were safe at second and third.
Cook singled to right, Allesio scoring
and Brownlow came in on a bad throw
to the plate which got by Steadman.
Maret tripled, clearing the bases.
Romine made the first out, grounding
to Baker and was out at first. Hun-
ter singled to center, Maret scoring
on the hit. Huckaba singled to right
and stole second, Coke flied to Mc-
Duff. Allesio singled past third, Hun-
ter and Huckaba scoring. Brownlow
was safe on Erwin's error. Smith
skied to Frohoff.

Eight hits, seven runs.
Robert walked, Halbrooks safe at
first on fielder's choice, Roberts being
forced at second, Romine to Cook.
Frohoff struck out, McDuff flied to
Cook. No runs, no hits.

Second Inning
Cook singled to left, Maret hit to
right, Cook going to third. Maret
stole second, Romine singled to right,
Cook and Maret scoring. Huckaba
walked. Coke safe on N. Baker's er-
ror of his grounder. Allesio struck
out. Brownlow flied to Frohoff.
Three hits, two runs.

N. Baker lined to short, Steadman
fled to Hunter. Erwin singled past
short. E. Baker flied to Maret. One
hit, no runs.

Third Inning
Smith grounded out, Halbrooks to
Erwin. Cook grounded out to Erwin.
Maret was out at first on fielder's
choice, Erwin unassisted. No runs,
no hits.

Bass out at first, Romine to Mar-
bet. Roberts singled to left, Hal-
-

(Continued on page three.)

FRENCH "TIGER" TO PUT WAR POLICIES BEFORE THE PEOPLE CLÉMENTEAU SUSTAINED BY THE FRENCH CHAMBER; PROMISES AN EARLY ELECTION

(International News Service)

Paris, July 23.—Premier Clemenceau is going to put his war
and peace policies squarely up to the people of France. He an-
nounced in the chamber of deputies that he would introduce a gen-
eral elections bill the day after the treaty is ratified. This an-
nouncement was made just before the chamber of deputies gave
the Clemenceau ministry a vote of confidence by a big majority.

FEAR LENIENCY

(International News Service)

PARIS, July 23.—Opposition to
America's participation in the fram-
ing of the Bulgarian peace treaty, as
revealed in the European press, is
due to the belief that the American
delegates will favor lenient terms for
the Bulgarians.

SIGN A TRUCE

(International News Service.)

LONDON, July 23.—The Rouman-
ians have agreed to an 8 days truce
with the Hungarian reds, said a dis-
patch from Copenhagen.

Decatur City Hall Will be Repaired

The Decatur city hall will be re-
paired at an expense of several hun-
dred dollars, it was announced today.
The entire interior will be repainted
and redecorated and the building oth-
erwise renovated.

New Law Not Held Invalid is Report

The latest opinion in the famous
Claude Rogers case by the court of ap-
peals was received here today, but lo-
cal court officials held that the in-
determinate sentence law was not
held invalid by the decision of the
higher court, as press reports from
Montgomery indicated.
The case has been remanded to the
Morgan county circuit court, but it
points out that the defendant should
have been sentenced to one year and
a day, and not one year. Officials
declare that the opinion in no way
invalidates the new law.

Many Visitors Here From Lawrenceburg

The Twin Cities felt complimented
at so large a company of visitors
from Lawrenceburg, Tenn., yesterday,
and they were extended most cordial
greetings. Though their presence
and loyal "rooting" for their ball
team yesterday may have added mat-
terially to the big score piled up
against the locals, the welcome they
receive was none the less sincere. A
number of autos brought the visitors
down; while others came by train.
About fifty are reported in the party.
Among those who attended the game
yesterday are: V. M. Leech, Judge
J. G. Crews, Thos. H. Hinton, Robert
C. Cason, Mrs. Robert Harvey and
children, Mrs. H. D. Derrick and
children, Sam D. Tulley, John W.
English, J. P. Hobbs, Judge Howard
Carrell, James L. Dunn, Jr., John B.
Dunn, Jr., F. M. Busbee and C. S.
Harmon.

War-Time Aridity Upheld by Judge

(International News Service.)

NEW YORK, July 23.—The consti-
tutionality of the war-time prohibi-
tion act was upheld today by U. S.
Judge Chatfield, when he heard a
test case brought by the Liquor Deal-
ers' association of Conn.

FRENCH WRITER SAYS WILSON MAY SEND SPECIAL MESSAGE

(International News Service.)

PARIS, July 23.—Writing in Fi-
garo, today, Louis Aubert, eminent
French financial expert, forecasts that
President Wilson will send a message
to the American congress recommend-
ing plans that will enable the allies
to liquidate their debts to the U. S.
and secure further credits. Presi-
dent Wilson's reported plan will like-
ly take the form of extending the
scope of the War Finance Corpora-

LANSING BELIEVES THAT SULLIVAN IS KING

(International News Service.)

NEW YORK, July 23.—Secretary
of State Lansing's first question
upon returning to American soil
was for real "dope" on the Willard-
Dempsey fight. He declared that
neither Dempsey nor Willard seem-
ed to be in a class with John L.
Sullivan.

MINOR MATTERS ARE DISPOSED OF

ENGINEER ALLOWED MORE TIME
TO COMPLETE REPORT
ON PAVING.

To give the city engineer more time
to complete his report on the paving
of a number of streets in Albany, the
city council last night failed to take
up the improvement program.
Several minor questions were dis-
cussed as follows:

A resolution was passed to permit
the Decatur Land company to
straighten Kern street, which begins
near the compress and goes westward.
The street, as shown on the company's
plat, is crooked. A letter was read
from officials of the water company
relative to proposed changes in the
company's franchise. The changes
will be held up until after the legis-
lature passes on a bill taking control
of franchises from municipalities and
placing it with the public utilities com-
mission.

Mayor Dillehay was authorized to
take up the matter of straightening
Dry Creek.

Citizens again were warned to con-
nect their property with the sani-
tary sewers.

Greets Brother for First Time in 20 Yrs

Alderman John A. Thomason, of
Decatur, left this afternoon for Falk-
ville to visit his brother. He will
greet for the first time in 20 years
another brother, Edgar Thomason, of
Port Arthur, Texas, who is there visit-
ing relatives.

Henry Skeggs is Here on Business

United States Marshall Henry A.
Skeggs, of Birmingham, is here to-
day on business. He will return to
the Magic City tonight. Mr. Skeggs
was for many years mayor of Deca-
tur and has a large circle of friends
in the Twin Cities. He is a brother
of Judge William E. Skeggs.

ANOTHER SOLDIER HOME

James H. Nelson, honorably dis-
charged from company L, 358 Infan-
try, is a visitor of his brother J. T.
Nelson of Decatur. Young Nelson
was in France for twelve months and
was in the fighting around Verdun, at
St. Mihiel and in the Argonne forest.
He escaped without serious wounds.

Y. M. C. A. Will Meet Business Men's Club

The rejuvenated Y. M. C. A. team,
which succeeded the team now called
Albany-Decatur, will meet the Busi-
ness Men's club Friday afternoon at
the ball park, it was announced to-
day. The latter team is made up of
players of both the Fat and Lean
teams. Ladies will be admitted free,
it was announced.

TEXAS GOVERNOR STILL READY TO GUARD THE BORDER

DECLARES CONDITIONS NOW
ARE NO WORSE THAN
USUAL.

AUSTIN, Texas, July 23.—Condi-
tions on the Texas border are no
worse than they have been for the
past two years, but there is still need
for more adequate protection of Amer-
ican citizens and property, according
to a statement made here today by
Governor Hobby of Texas, who de-
clared he had nothing further to add
to the representations he made to the
federal government some time ago re-
garding conditions along the Rio
Grande.

At that time he offered the ser-
vices of the Texas national guard for
border protection, and that offer, the
governor states, still holds good.

BRITISH CABINET DISCUSSES STRIKE

LOYD GEORGE MAY MAKE AN
EFFORT TO REACH SET-
TLEMENT.

(International News Service.)
LONDON, July 23.—The cabinet
held an important session today to
discuss the industrial situation. It
was reported that Premier Lloyd
George would confer with officials of
the striking coal miners this after-
noon in an attempt to pave the way
for a settlement.

MEN WILL VOTE

(International News Service.)

LONDON, July 23.—By a vote of
217 to 11, the "triple alliance" this
afternoon decided to put the question
of a general strike of miners, rail-
way men and transport workers up
to the men themselves.

PAINT AND PAPER STORE NOW OPEN

The first exclusive paint and wall
paper store here is open for business
on Second avenue. The Wilson Sign
company has added a complete stock
of paints, varnish and wall paper of
exclusive patterns. The members of
the firm are Charles R. Wilson, T. Z.
Buchheit and C. F. Hodges, all well
known local business men.

Pacific Fleet is Nearing Canal

Aboard the U. S. S. Arkansas, with
the Pacific fleet, July 23.—The six
super-dreadnaughts of the Pacific
fleet were passing through the Wind-
ward passage today and were due to
emerge into the Caribbean Sea, 550
miles north of the Panama Canal, be-
fore noon.

England Plans the Production of Cheap Autos in Quantity

(International News Service.)

LONDON, July 23.—A proposal to
convert a \$5,000,000 national war
plant into an automobile factory
which would employ 5,000 ex-soldiers
in turning out cheap cars is being
considered by the Government. Pend-
ing decision, the sale of the war plant
of Burton-on-Trent by the Ministry of
Munitions is being delayed.

In addition to providing work for
men who otherwise would be loafing
from the Government, it is hoped that
automobiles could be produced at a
price within reach of the middle
classes, thereby easing to some ex-
tent the very overburdened transpor-
tation system.

Engineering experts at the Minis-
try of Munitions would design the
car. Private industry, however, is
against the measure.

The national factory at Burton-on-
Trent was completed about the time
the armistice was signed and covers
sixty acres. It was designed for
quantity production of machine guns.

CULLMAN GRAND JURY MAY REPORT TODAY; GRAVES MENTIONED SHERIFF

CULLMAN, Ala., July 23.—The
grand jury which was convened Mon-
day and which at once began an in-
vestigation of the killing of Sheriff
John W. Sparks by John Mack, who
was in turn killed by the officer, is
expected to report late today. It is
understood that a number of witness-
es have been examined.

SOLDIERS HONORED

(International News Service.)
WASHINGTON, July 23.—Twenty-
three more officers and enlisted men
of the A. E. F. have been awarded the
distinguished service cross by Gen.
Pershing.

Among those honored was Private
John S. Rives, deceased, Mulbe-
Tenn.

FINNISH LEGION FIGHTING BOLSHEVIKI

Part of the Finnish legion operating against the bolsheviks in North Rus-
sia are here shown at a halt during a march across a frozen lake.

INSIDE STORY OF UNIQUE DISASTER TOLD TO CORONER

(International News Service.)
CHICAGO, July 23.—Owners of the
dirigible which crashed through the
ceiling of a bank here were cleared of
blame here today.

RAIN AND TROOPS SQUELCH THE RIOTS AT WASHINGTON

(International News Service.)
WASHINGTON, July 23.—That
the flame of race hatred in the na-
tional capital had about flickered out
was the belief today of both local and
federal authorities.

When the metropolitan and military
police, together with 2,000 troops, re-
laxed their vigilance today, there had
been only desultory fighting, in which
one man had been killed and one se-
riously injured, both having been shot
by the same negro, who is still at
large.

The iron hand of federal military
authority, aided by a steady down-
pour of rain, served to restore the
city to almost normal conditions.

PAINT AND PAPER STORE NOW OPEN

The first exclusive paint and wall
paper store here is open for business
on Second avenue. The Wilson Sign
company has added a complete stock
of paints, varnish and wall paper of
exclusive patterns. The members of
the firm are Charles R. Wilson, T. Z.
Buchheit and C. F. Hodges, all well
known local business men.

The auto painting department has
been moved to the upper story of the
Burk garage building on Lee street.
In the second avenue establish-
ment a sitting room for women has
been fitted up and a woman attendant
will arrive here from Birmingham on
August 1 to have charge of the re-
tail house.

Prisoners Won't Work; Can't Eat

(International News Service.)
LEAVENWORTH, July 23.—None
of the 2,500 prisoners on strike at the
U. S. army disciplinary barracks has
had anything to eat in the last 24
hours. It is understood that Col. Rice,
commandant of the prison, has asked
for instructions from Washington.
The prisoners demand that they be
released at once.

WANTS LOWER TAXES

(International News Service.)
WASHINGTON, July 23.—The
country's electric railways are now in
such financial shape that federal,
state and municipal governments
should relieve them of at least a part
of the heavy taxes now being borne,
Prof. Bulloch of Harvard asserted to-
day.

Sample of Water is Being Tested

Another sample of the water fur-
nished Albany and Decatur by the
Alabama Water Supply company has
been sent to Montgomery for a test.
Mayor Dillehay reported to the city
council last night. Several tests al-
ready have been made and the water
found to be all right.

Other tests during the summer are
planned.

WHITE AND BLACK TROOPS WILL NOT SERVE IN SAME UNIT.

The persons responsible for placing
negro and white troops in the same
units abroad will be called to account
by the war department and the color
line will be drawn in all cases in the
army, according to information fur-
nished Senator Bankhead by Peter
Harris, adjutant general.

The announcement followed a peti-
tion circulated here on July Fourth
and signed by several thousand Mor-
gan county citizens requesting that
the races be segregated in the service.

Ex-Kaiser is Refused Moving Privilege by Dutch Foreign Office

(International News Service.)
THE HAGUE, July 23.—The Dutch
foreign office has refused to grant
permission to the ex-kaiser to move
from Amerongen, though he himself
desires to move, Count Bentinck de-
sired to get rid of him, and the for-
mer German emperor's friends had
found a suitable residence elsewhere.

The ex-kaiser is legally free to
leave Holland, it is stated here, but a
significant statement from the for-
eign office today declined to say what
would happen if he tried to leave. Wil-
liam's so-called "freedom" consists of
being guarded by gendarmes.

Haleyville to Play Three Games Here

Manager Hames, of the Albany-
Decatur squad, today announced that he
has booked three games with the fast
Haleyville team, beginning Monday.
The Haleyville warriors have met
Lawrenceburg in several close con-
tests this year and it was through the
efforts of the Tennessee aggregation
that the games were arranged.

Mrs. Sibley Dies at Her Home Here

Funeral services will be held Thurs-
day afternoon at 4 o'clock for Mrs.
Thelma Brooks Sibley, wife of R. M.
Sibley, who died yesterday evening at
7:30 o'clock at the residence of her
mother, Mrs. J. N. Brooks, 510 Fourth
avenue West. The services will be
conducted by Revs. R. I. Walston and
W. P. McGlawn and interment will be
made at city cemetery.

Mrs. Sibley is survived by her hus-
band, parents, six sisters; Mrs. A.
W. Reams, Mrs. R. L. Ford, Helen
and Martha Evelyn Brooks, three
brothers; Thomas, John D. and Ev-
erett Brooks.

SOLDIERS HONORED

(International News Service.)
WASHINGTON, July 23.—Twenty-
three more officers and enlisted men
of the A. E. F. have been awarded the
distinguished service cross by Gen.
Pershing.

Among those honored was Private
John S. Rives, deceased, Mulbe-
Tenn.

SHERMAN MEASURE RESULT OF RECENT TUMBLE BY BLIMP

ILLINOIS SENATOR IN BRIEF
SPEECH ADVOCATES FED-
ERAL AIR CONTROL.

More Solons Invited

PRESIDENT TO SEE OTHER RE-
PUBLICANS BEFORE LEAV-
ING ON SPEAKING TRIP.

(International News Service.)
ASHTON, July 23.—Federal
regulation of the navigation of the
air is provided in a bill introduced in
the senate by Senator Sherman of Il-
linois, who in a brief speech declared
that navigation of the air must be
regulated, as was proved by the
blimp disaster at Chicago.

Senator Norris is expected to make
public before the end of the day a let-
ter declining to see the president.

NO ACTION EXPECTED

(International News Service.)
WASHINGTON, July 23.—Congress
will take no action with respect to
the Mexican situation. While senti-
ment seems to be crystallizing for de-
cisive measures to end outrages
against American citizens in Mexico
and many members are demanding use
of the armed forces of the U. S. in
a general clean-up, the leaders in
congress, it was learned today, have
decided to follow the lead of the state
department.

RAIN AND TROOPS SQUELCH THE RIOTS AT WASHINGTON

(International News Service.)
WASHINGTON, July 23.—That
the flame of race hatred in the na-
tional capital had about flickered out
was the belief today of both local and

RACE RIOTING AT THE NATIONAL CAPITAL

Just at this particular time the nation is being treated to a bit of bloody race rioting. The clash between blacks and whites did not occur in the South, where in many communities the negroes are in the numerical ascendancy, but in the very capital of the republic, at the seat of government, in the citadel of constituted authority. It cannot be charged that either the federal administration or the District police have connived at, encouraged or failed to try to suppress the disorder. It is, therefore, patent that a very strong hostility must have inspired the outbreak, and that the social intermingling of the races is just as impossible in one section of the country as in another.

The only solution of the problem is for the negro to learn to feel the same racial pride that the Caucasian does, and to be equally as willing to preserve that same social aloofness. Until that distant day arrives, tragedies of the kind that are now disturbing Washington will occasionally occur.

PROTECTION FROM AERIAL DISASTERS

Chicago's weirdest tragedy, caused by the fall of a giant dirigible through the sky-light of a bank, has brought prominently to public attention the necessity of legislation for the protection of lowly humanity from the terrors of the air. Heretofore, "as free as the air" has been a by-word, but from this time forth it may be taken for granted that even this boundless commodity will be hedged in by legal barriers and statutory provisions, and that the daring birdman will soon be compelled to pay strict heed to "silent policemen" and traffic cops. He will also be forced to observe certain flying limitations, certain barred zones, certain speed limits. Instead of being welcomed as one of the dare-devils of the age, he is likely to be classed with the speed demons of the road, and to be considered a menace if not an enemy. Just how far the craze for legislation of this kind may go is only a matter of speculation.

There is "psychology" in baseball as well as in everything else. For instance, take the game yesterday. The "stands" were licked before the game began, and it was practically agreed that the visitors would win. This subtle mental mood made itself felt on the playing field, and the same lack of confidence that ripped the spectators was communicated to the team. It requires team work to win a ball game, as well as to build a city.

Bernstorff, who, according to history, was the German Imperial Ambassador to the United States, once upon a time, says, that the Germans, though they signed the peace treaty under protest, will keep its provisions faithfully and loyally. So they may, but Bernie saying they will, makes it extremely doubtful.

Sure enough the Chinamen are going to sign the big peace treaty. But what is the use, as who can read their signatures.

Every nation that helped whip the Germans is claiming the credit individually. Hoover says food won it. McAdoo says the railroads won it. Hurley says the ship-building industry won it. And now comes King Constantine and says in a dignified way, but in effect "I done it." Will wonders never cease.

It takes more than a swallow to make a summer, and more than one ball game to win a title.

Mexico has offered to act as arbitrator in the present Costa Rican difficulty. Why not get her to send Carranza to the U. S. senate to settle the little trouble over the League of Nations agreement. He tends to things so beautifully in Mexico.

The supplications for rain yesterday before the fifth inning were of no avail.

Since about a quart a month is allowed in case of severe illness, the sickness business should experience a boom.

Raisuli and Villa, if they but knew could do much better on the Chausu platform.

Other Editors Say**ALABAMA LEADS AS PEANUT PRODUCER**

Alabama will this year produce a fourth of the entire peanut crop of the nation, although the yield will be smaller than in 1918. Alabama comes first in the peanut crop forecast of this year with 14,708,000 bushels; Texas next with 12,478,000 and Georgia third with 9,949,000.

The profits in peanut production have become larger since the practice of grading and cooperative shipment. Peanut oils are growing more and more in popularity. The humble peanut it is called, but the peanut yield of Alabama has become one of the state's most important farm products.—Birmingham Ledger.

A disgusted Republican writes to the Sun to protest against the mistaken policy of his party leaders in the Senate. Certain in the end to ratify the treaty and the League of Nations, they are, he complains, simply settling down to do a lot of preliminary "senseless talk." But this is to overlook the great and gallant fight they are making over the choice of a word. There must be "reservations," or else "interpretations," or "explanations," or "declarations"—anyhow, some word ending in "ations." For that the Republican Senators are ready to die in their tracks. Meanwhile, the rank and file of their party, with the nation, are looking upon the performance with "ation" of their own—vexation or irritation or damnation.—New York Evening Post.

Big enough fortunes are being made out of the manufacture of chewing gum and Battle Ax plug without either men or women working overtime on the finished product to increase the dividends.—Tri-Cities Daily.

When Henry Ford said there was no hate in the trenches he probably judged from the business-like way in which the doughboys slaughtered the Huns that no more feeling entered into it than is found in the butcher business.—Huntsville Telegram.

JUST IN PASSING**TWO HAD DOCTOR**

The Albany-Decatur team went in to yesterday's contest weakened by sickness. On the player's bench, just before the start of the game, the members of the squad were "checking up" on each other's condition. "Cy" Graham, who twirled Monday's game and Erwin, local first sacker, both were forced to interview a physician Monday night because of illness. The heat was the cause. Other players were more or less "ailing."

A CASE OF "HARD LUCK"

"I remember one bit of hard luck I experienced in my school days that I will always associate with the diamond," said John W. Jones, prominent Decatur cotton dealer. "I was with the V. M. I. team at the time and was field captain. We played an ancient rival of ours, two games. We won the contest on our home lot and they captured the one on theirs. Then we went to Roanoke, neutral territory, for the deciding game. Our team was badly crippled, so I went to right field, while our other catcher was behind the bat. Along in the eighth inning the score was tied and our opponents got a man on third base. A big fellow came and hit a long drive to right. I thought I was under it, but a high wind blowing at the time sent it toward the foul line. I moved over too and still was under it. Being field captain nobody offered any advice and finally I caught the ball, but imagine my chagrin when I found I was way outside the foul line and the runner on third scored."

FAVORS MERGER

"I had rather have one good town, than two jealous towns," declared J. O. Camp, the electrician. "I make my living in both towns and my friends are located in both towns. The quicker we get together and get busy after something big, instead of brooding over petty rivalries and imaginary advantages and disadvantages the better it will be for us. Besides the towns could be administered much more economically, if we were one. Something like 25,000 inhabitants showing up on the next federal census, knocks the block off of all this talk about the name of the city, etc. And we will be a much bigger drawing card to the outside world when we are consolidated," concluded Mr. Camp.

Baldness Caused by Wax

Baldness due to hardening of ear wax has been reported in two cases by Dr. J. Daroid, a French physician. In both patients, men of 32 and 52 years respectively, bald patches had appeared on the back and both sides of the head, and careful examination of mouth, teeth, throat, nose and chest revealed no exciting cause. Both ears of each man were closed by wax. In the second week after removal of these plugs, new hair began to grow, and it soon became firm and abundant.

Oriental Rugs

Not only the design but the colors of the rugs woven in the Orient are full of significance. They represent national or individual traditions, and stand for virtues, vices and social importance.

Lord Lytton May Be Ambassador

(International News Service.)

LONDON, July 23.—It was reported in American diplomatic circles today that Lord Lytton is a most likely choice of the British government for the post of ambassador to Washington. The Prince of Wales will visit only New York and Washington on his visit to America.

BOONE'S ILL-FORTUNE

"With Kentucky won, Boone found that by one of the twists of law, the plot of ground he thought was his was not his at all," says William Heyliger in concluding an article on "Daniel Boone" in the July issue of Boys' Life, the official magazine of the Boy Scout organization. "Almost like a penniless outcast he moved to Virginia, but when fresh tales came to him of land to the west of the Mississippi, then called Louisiana, his sixty-one years did not deter him from risking himself near the present city of St. Louis and took what he thought was a deed to land; but in 1803, when this territory passed from Spain to the United States, he found this claim worthless.

"But now the American people were awaking to a realization of what Boone's leadership in Kentucky had meant to the nation. Congress granted him eight hundred and fifty acres of land. There in the west, free from want, he passed his last days. Twenty-five years after his death his remains were brought back to Kentucky. And, in the land he gave to civilization, he sleeps, this man who carried the torch of civilization among a savage people and bared his chest to the shock of battle that its flame might not be extinguished.—Montgomery Advertiser.

Tit for Tat

A very fat man was much amused by the ludicrous appearance of a bow-legged youth, who called upon him with a message. "By jingo," he exclaimed, "you look as if you'd been riding a barrel!" The bow-legged one smiled as he retorted: "And you look as if you'd been swallowing one!"

The Ford truck is just another arm and hand to the business man, adding through its manifold usefulness to the possible volume of his business, and at the same time doubling the value of every hour. In so many ways its all round utility serves the urgent demands of business—big and little—the retailer and wholesaler, the manufacturer and consumer, the contractor and farmer. Everywhere where business exists there is a present want for Ford trucks. Consider the price, \$550, without body, f. o. b. Detroit. Let's talk it over with you.

GREAT CROWD GREET'S BRITISH DIRIGIBLE R-34

The photograph shows but a portion of the enormous crowd that turned out to see the R-34, the huge British airship, on its arrival at Mueola, L. I. The R-34 made the trip from England in 108 hours.

Rum Made in Philadelphia.
Rum distilled from molasses was among Philadelphia's principal manufactures before the revolution. Dr. Benjamin Rush wrote to "Mad Anthony" Wayne after the capture of Stony Point: "Our street rang with nothing but your name. You are remembered constantly next to our good and great Washington, over our claret and madeira." Both were much in demand at the city's typical entertainments of the stranger.

Two Things He Remembered.
The proprietor and editor of a certain local paper had been indulging in a little plain talk and prophesying disaster to the little town if certain improvements and sanitary reforms were not forthwith adopted. A local parson sided with the rural council which neglected these things and, after a sermon evidently pointed at the newspaper man, said: "You should remember the fate of Balaam." "I do," was the prompt reply from the parson, "and I also remember who it was that warned the prophet."

Know Only Two Seasons.
There are but two seasons—the wet and the dry—at the equator in Africa. The former (summer) lasts eight months, with the thermometer averaging from 110 to 125 degrees Fahrenheit. During the dry or "cold" season of four months the thermometer stands at about 70 degrees. It is then that the natives, who have been hived in their bamboo huts so long by the rain, desert their towns and get out for the forests and jungles.

TWO MONTHS**

**SIXTEEN YEAR OLD GIRL GETS
WONDERFUL RELIEF FROM
LIVER AND STOMACH TROU-
BLE, CONSTIPATION AND CA-
TARRH.**

**The New Root and Herb Juice Rem-
edy, Dreco, Scores Another Victory
Over Pain and Discomfort.**

"Today is the first time in two months that my sixteen year old daughter has had on her shoes, and she is feeling stronger and better than in many months," are the words of Lula Pope of Route 1, Huntsville, who is a member of one of the best thought of colored families in this county.

"My daughter has had catarrh of the head and stomach; badly constipated; often had headaches; dizzy spells; was very nervous; couldn't sleep; had no appetite, and her stomach seemed almost dead, for no food seemed to do her any good. She was weak and puny and seemed not to take any interest in anything.

"It was sure a good friend of mine who advised me to give her Dreco, for this medicine has sure brought her out and got rid of all her troubles; she is picking up every day and looks better than she has in a long time. Dreco is sure fine medicine, and I am mighty glad I found out about it."

Dreco is composed of the juices and extracts of many different roots, herbs, barks and berries, which act on the stomach, liver, kidneys, bowels and purify the blood. It relieves constipation, prevents gas forming in the stomach; increases the appetite; insures sound refreshing sleep; banishes catarrh of the head and takes the pain out of rheumatic joints.

All good druggists now sell Dreco and it is highly recommended in Albany by Albany Drug Co. and in Decatur by Hilda Drug Co.—Advertisement.

Locals "Blow Up" and Farce Game Goes to Visitors

(Continued from Page one)

brooks fouled to Smith. Frohoff struck out. No runs, no hits.

Fourth Inning
Romine skied to Erwin, Hunter out, Bass to Erwin. Huckaba struck out. No runs, no hits.

McDuff fouled to Smith, N. Baker whiffed. Steadman out, Cook to Marbet. No runs, no hits.

Fifth Inning
Coke grounded out to third, Allesio hit for one base to center and took third on Brownlow's infield out when Baker dropped the throw, Smith was safe on an infield hit and took second on Halbrooks' bad throw to first, Allesio scored. Cook flied to McDuff. Two hits, one run.

Erwin flied to Hunter. E. Baker grounded out at first. Bass grounded to third and was safe when Marbet dropped the throw. Roberts flied to Cook. No runs, no hits.

Sixth Inning
Maret singled over second. Romine popped to McDuff. Hunter flied to N. Baker. Marbet out stealing. Steadman to McDuff. One hit, no runs.

Halbrooks out, Romine to Marbet, Frohoff out, Romine to Marbet. McDuff called out on strikes. No runs, no hits.

Seventh Inning
Huckaba singled past Erwin. Coke singled to center, Huckaba stole third, Allesio safe on fielder's choice, Coke being forced at second and Huckaba scoring. Allesio out stealing. Steadman to McDuff. Brownlow fanned. One hit, one run.

N. Baker out, Coke to Marbet. Steadman fanned. Erwin struck out. No runs, no hits.

Eighth Inning
Smith flied to E. Baker. Cook safe at first on Halbrooks' error of his grounder. Marbet skied to Roberts. Romine safe on infield hit, Cook being forced, McDuff to Halbrooks. One hit no runs.

E. Baker struck out. Erwin struck out. Roberts doubled to deep center. Halbrooks safe when Marbet dropped throw. Roberts thrown out at the plate. Marbet to Smith. One hit, no runs.

Game called on account of rain.

Summary
Two base hits, Roberts. Three base hits, Marbet. Stolen base, Marbet. Huckaba 2. Struck out, Barnes 0, Bass 4, Coke 8. Base on balls, Bass 1, Coke 1. Hits off Barnes in one inning, 8; hits off Bass in 7 innings 8; hits off Coke in 8 innings 3. Umpire, Frohoff.

Really True.
An Indianapolis seventh grade was studying the gender of nouns. As a final review the teacher asked the pupil to give a few definitions. Masculine gender was defined and then came the request for a definition of the feminine. Alice, whose mother is a rather noted feminist, recited: "Feminine gender is the gender that opposes masculine."

Clearing Bottles.

When the inside of a bottle contains some deposit which cannot be removed by mere rinsing it will be found that a teaspoonful of ordinary silver sand, together with a little water, if well shaken up in the bottle, will get rid of it. Scraps of paper and tea leaves can be used with water for the same purpose.

Inkless Pen.

To make a pen that will write, without ink, get a small quantity of violet aniline from a drug store, and some gum arabic. Dissolve a little of the gum in warm water, and mix with the violet aniline until a paste is formed. Apply it to the inside hollow of a new pen nib, just above the split. To write with the inkless pen it is only necessary to dip it in water. Shake away the drops, but do not wipe the pen. After a few moments it will be possible to write quite well.

Reading by Ear.

A new invention for the blind enables them to read with their ears. It is a machine called an octophone, by means of which flashes of light from the letters as they are printed cause certain sounds, easily distinguishable by the initiated. The sounds vary with the shapes of the letters, and very high resistance telephones transmit these to the ears of the blind person, "reading" with highly satisfactory results.

Most Costly Map.

The most costly map in the world is a map of France which was presented to the republic by the czar of Russia when the Franco-Russian alliance was consummated. The groundwork of the map is polished jasper and the chief towns are represented by precious stones and their names inscribed in gold. The five departments are set out on a wonderful scheme of blazing gems.

Would Fill Many Refrigerators.

The heart of Greenland is said to consist of a block of ice covering 600,000 square miles and averaging a mile and a half in thickness.

More of the Same Kind.

A fellow who loses his temper seems to know just where to get another just as bad.

Todd the following left this morning for Morris Mill: Madge and John Bullard, Amanda Pride, Mary Penick, Edith Doss, Pansy and Helen Russell, Erin Draper, Mary Harvey, Eleanor Harrison, Eleanor Hoyt, Dunlap Alexander, Malcolm Patterson, A. C. Bailey, Eugene Russell, Sanders Corner, Clyde Sharpe of Hartselle, Jeff Eyster, Ponsonby Kyle, Barrett Shelton, Geo. Todd, Robert Doss.

REUNION AT OLD HOME

The Lamon family held a reunion on July 19 at the home place at Maysville, Ala. Members to the number of fifteen gathered at the home of H. M. Lamon who resides at the old homestead and a most enjoyable day was had. W. R. Bradford and wife of Albertville, W. J. Byrne and wife of Huntsville, Jno. W. Nance and wife of Huntsville, C. E. Lamon of Albany, D. H. Lamon of Sheffield, John M. Lamon of Atlanta were among those present.

Mrs. A. C. McCurdy of Chattanooga is visiting her sister, Mrs. O. L. Mahoney.

Miss Lucile Bailey is expected to return Friday night, having taken a summer course in piano, organ and voice at the Cincinnati Conservatory of Music.

Miss Sue King of Leighton is the guest of Mrs. Jno. Minor and Miss Maud Odum.

Mrs. Alex Wisley of Obion, Tenn., is the guest of her sister, Miss Eva Lou Baxter at the residence of her aunt, Mrs. J. W. Pipkin.

Mrs. W. C. Howell of East Albany left today for an extended stay in the West.

Miss Alice Crane is the guest of Miss Sadie Hurston at Tusculum.

Misses Hermione Troup and Laura Pride are at Tusculum to attend a dance given in their honor at the Hurston home.

Miss Leta Bess Harrison is taking teacher's examinations at Falkville.

En route from Courtland to Atlantic Beach, Miss Helen Bynum visited Mrs. B. P. Wallace Tuesday.

A telegram to Rev. and Mrs. J. I. Stockton announces the arrival from overseas of their son, Judson Stockton, of the Fifth division, 21st Field Artillery. Mr. Stockton will be discharged at Camp Merrit, N. J. after a service abroad of twelve months, and is expected home shortly.

Mrs. Frank P. Lide will leave today for Columbia, S. C., to visit her parents.

Mrs. George M. Webb has returned from a two months trip through California where she went to meet her son, C. H. Webb, who returned from overseas.

Mrs. L. E. Boeglen continues quite ill at her home on Grant street.

DANCE AT HOTEL LYONS

Last evening chaperoned by Mrs. L. H. Bullard and Mrs. W. K. McNeill a few couples enjoyed a dance at the Hotel Lyons. The Malone orchestra furnishing the music.

PICNIC SUPPER

A party of about twenty five motored to Slip Up last evening to a picnic supper that was given in compliment to Mrs. R. P. Jennings of Akron, O., who is visiting her sister, Mrs. J. B. Schimmel. Our town guests were: Misses Alberta Gray of Paris, Tenn., and Lettie Mae Side of Cincinnati, Ky., and Mrs. Walter Jordan of Lexington, Ky. A tempting lunch was spread, including many gallons of home made ice cream.

DINNER COMPLIMENT TO JOE CORNISH

Sunday evening, for Joe Cornish, Stanley Wyatt, Neal Speake and James Johnson entertained Misses Leta Bess Harrison, Gertrude Johnson and Trixie Scheer at dinner at the Hotel Lyons.

Mrs. W. C. Howell left today for a visit to relatives in Arkansas and Texas.

Misses Margaret Penick and Kathleen Almon, Mr. and Mrs. Foster H. Pointer, LeRoy McEntire and T. M. Jones, members of the Paint Rock campaign party, have returned home.

PERSONALS

G. M. Ponder has returned from Huntsville and is in Albany for a few days.

Master Carl Gallagher is visiting his cousins, Roy and Harmon Stanley at Paint Rock.

Capt. Joe Wood has arrived from overseas duty.

Harry H. Holder, Huntsville Telegram reporter of Huntsville, was in Albany yesterday attending the ball game.

Prof. Ralph W. Cowart, when last heard from at the port of embarkation in France, was suffering from influenza. It is expected however that he will return to America soon.

Arthur Mills is here for a few days.

John L. Proctor, manager of the Morgan Furniture Company, left Sunday for Chicago, Evansville and other points. He will be gone ten days and will visit all the leading furniture markets.

Henry A. Spielberger was here Tuesday, and will leave soon for Ft. Worth, Texas, where he is interested in oil properties. A telegram received by Mr. Spielberger while here announced that his uncle had just brought in a "gusher."

Tul Worley has returned from a visit to relatives in Tennessee.

B. Y. P. U. PICNIC

Undaunted by the clouds after the first shower, the B. Y. P. U. of the First Baptist church, Decatur, motored to Slip Up Tuesday evening and enjoyed a picnic supper. Jap lanterns twinkled among the swaying branches of the trees, lighting the tables prettily. A tempting supper was served.

PICNIC THURSDAY

All members of the First Christian church are invited to meet in the grove at the end of the car line on Grant street tomorrow, Thursday evening at 4:30. Barbecue and ice cream will be served free of charge. Let all come and have a good social time. J. H. HILL, Minister.

ICE CREAM SUPPER

On lawn of St. John's Episcopal church, Thursday evening, 7 to 11, July 24. Fortune teller the feature. The public invited. 23-2t

World's Greatest Cataract.

What is set down as the greatest cataract in the world is on the Iguazu river, which partly separates Brazil and Argentina. The precipice over which the river plunges is 210 feet high, that of Niagara being 167 feet. The cataract is 13,123 feet wide, or about two and a half times as wide as Niagara. It is estimated that 100,000,000 tons of water pass over Niagara in an hour. A like estimate gives the falls of Iguazu 140,000,000 tons.

War Macaroni.

Somebody is complaining of the size of the war macaroni. We have always preferred the 44-calibre kind to the sort they call wormicelli, as Samivel Weller would say.

Method.

"How did you get the reputation of being so wise?" "I talk with a man till I discover something he doesn't know anything about. Then I pretend to explain it to him."—Washington Star.

Keep Up the "Friend Supply."
The success of every life, as well as its happiness, depends very largely on its friendships. Take time to make friends. Take time to keep them. There are a great many unnecessary things which can be omitted from our daily activities and no harm done, but for the making and for the keeping of our friendships in repair one must find time, whatever else is neglected.

Inject Ink Into the Eye.

Sometimes when a scar has been left on the corner of the eye it is most unsightly. Oculists used to tattoo these scars with India ink, but the method was not satisfactory and has almost been abandoned. Dr. P. H. Verhoff of Boston describes in the Journal of the American Medical Association the delicate operation by which he injects India ink with a hypodermic syringe into such scars, and says the results are far superior to the old-fashioned tattooing.

First Called Sleuthhounds.

Bloodhounds were first known as sleuthhounds, owing to their ability to track the deer, wild boar or the wolf. When the wounded game broke away and was lost, these good-nosed dogs were used in trailing the quarry by the blood trail, and hence they were finally called bloodhounds.

To Reduce Superfluous Fat you must work.

Your path will wind through many lanes of self-sacrifice before your mirror will give back the coveted willowy image. Your attainment of the ideal will mean hot work, too, for vigorous exercise is necessary. A daily walk of five miles should not be excessive if you are in good condition. Give a fair trial to the tonic baths so helpful for many girls who complain of "tired feelings."

Where Sardines Are Found.

Sardines are abundantly found off the Galician, Andalusian and Cantabrian coasts. This fish varies in length from approximately 4 1/2 to 7 1/2 inches and weighs from 24 to 68 grams (6.864 to 2.308 ounces); occasionally larger specimens are caught.

Women Soldiers in China.

China had women soldiers long before they were known in Russia. During the Tae Ping rebellion, 1850, women as well as men served in the ranks. In Nanking, in 1853, an army of 500,000 women was recruited. They were divided into brigades of 13,000 each and were commanded by women officers.

What They Left Behind.
We know of a lot of men who didn't leave much behind them in the way of actual cash accumulated but they did leave families rich in the memories of the happiness they had while they were alive.

All Make Mistakes.

The best of men and the most earnest workers will make enough of mistakes to keep them humble. Thank God for mistakes and take courage. Don't give up on account of mistakes.—Moody.

A Test of Time.

Another way in which a man can tell when he's getting along in years is by noticing whether a reference to the veterans of '98 sounds at all funny to him or not.

A Fantastical Terror.

"It's curious how soldier uniforms always show an influence on feminine fashions." "Yes," replied Miss Cayenne. "But I hope we won't keep on shortening skirts until we begin to imitate the Scottish Highlanders."

NOTICE
I will not be responsible for any debts made by my wife or any one else. B. H. MESSER. 23-1t

PALE PEOPLE— YOUR BLOOD MAY BE STARVING FOR IRON!

Your Blood Needs Iron, It Needs ZIRON, the New Compound of Iron, Which Acts as a Strengthening Tonic, Enriching the Blood and Building up the System.

When your blood lacks the proper proportion of red corpuscles to give your complexion the "rosy hue of health" and your complexion is pale, "pasty-looking," perhaps even greenish-tinged, you are probably of an anemic or chlorotic type, and your blood needs Ziron, to bring back the rich, red flush of health. Ziron, the new compound of iron, the hypophosphites of lime and soda, and tonic, strengthening ingredients, has been found of great value in conditions of anemia, chlorosis, debility, nervousness, lack of ambition, loss of appetite, dyspepsia, etc. It is a valuable reconstructive tonic, in cases of weakness, helps build up the constitution after severe illness.

Mrs. Mae Belle Perkins, of Adairville, Ga., writes: "About two months ago to feeling badly. My back hurt me badly, and my legs and arms hurt too, didn't have any appetite at all to eat. About two weeks ago I commenced Ziron, according to directions on the bottle. By the time I had taken the cure for a week, I could see it was doing me good. I had been weak and out, and it made me feel stronger, and I'm not a bit nervous now. My back is tight, and my arms and legs do not ache. And my appetite is good again. Before I started using Ziron I wouldn't rest at night, I was so tired feeling and worn out. I have used nearly the whole bottle and now I sleep fine every night. It sure is a fine medicine, and I am glad I tried it."

Ziron is non-alcoholic, contains no habit-forming drugs, acts gently, has no bad effects, is good for men, women and children. It is a medicine of genuine composition of ingredients prescribed by eminent physicians. Try it.

SPECIAL OFFER: Buy a bottle of ZIRON, today, at your druggist's and give it a fair trial, on the directions on the label. After using up one bottle, if you find it has not benefited you, take it to the druggist and he will refund what you paid for it. We repay him, so there is no reason why you should not repay him. This offer only applies to the first trial bottle. (G. A. L.)

BETTER CARE OF SWINE.

By J. C. Ford, Pig Club Agent.

Prepared by Extension Service, Auburn, Ala.

"The club boys and farmers of Alabama are rapidly improving the quality of the hogs in the state and also the methods of feeding, but that is not all that is needed. Better care should be given to keep them as free as possible from lice, mange and worms."

If constantly irritated by lice, hogs will be restless and cannot make the best use of their food. Lice do not add to the appearance of the hog and there is no market for lice, even on the soft basis. They are a pest and a nuisance and should be fought at every turn.

Nearly any oil preparation will destroy lice and so will any coal tar dip, such as Kresol. If the manufacturer's directions are followed. Crude oil applied with a brush or spray or in a vat or wallow will also destroy them. Treating the hogs will do little good unless the beds are also cleaned.

There are two types of mange that bother hogs. Both are caused by skin parasites somewhat similar to mites, that work into the skin. Red mange is very difficult to cure, but does not spread rapidly in the herd. If an animal can not be cured, it should be fattened and killed and the skin removed and burned. Scabby or black mange spreads more rapidly, but is not so difficult to cure.

Sulphur stirred into crude oil or a mixture of sulphur, kerosene and lard applied with a brush is a good mange remedy. It should be applied every 8 or 10 days until the trouble disappears. Lime-sulphur dip is also very effective. To make the dip, boil one pound unslaked lime and three pounds sulphur for two hours in two and one-half gallons of water. Strain and add warm water to make 12½ gallons. Houses and pens must also be cleaned.

A man or a club boy who enjoys the company of red bugs or "chiggers" should make no effort to keep his hogs free from lice and mange.

Intestinal worms are doing even more damage to the swine industry of the state than lice and mange.

There are several kinds of these worms, but lack of space forbids their discussion separately. Hogs get one kind by eating grub worms from pastures that have been grazed a long time by hogs. Others are gotten by eating in dusty pens in which hogs have been kept for several weeks and by drinking muddy, stagnant water or wallowing in stagnant pools or mud holes.

Plowing up grass pastures occasionally, keeping the hogs out of dusty pens and away from filthy mud holes and stagnant pools and keeping them growing every day will usually prevent serious trouble from intestinal worms.

An Aphorism Falls Down.

Genius has not yet been able to utter an aphorism that would hold good in every instance. "Familiarity breeds contempt," they say. Every notable poet, essayist or artist whatsoever has left a tribute to his mother, either by personal tribute, or dedication or through symbolism, of love for his mother. Yet no other man has ever found such expression, however sublime, that could measure up to his own idea of his mother's virtues. And where is familiarity so pronounced as between mother and son?—Seattle Post Intelligencer.

Iron That Can Be Whittled.

It is well known that rapid cooling of hot metals hardens them. That the opposite is true has recently been demonstrated in striking fashion by the General Electric company. One of their scientists annealed American pig iron surrounded by hydrogen gas for three hours at a temperature above 1,000 degrees Fahrenheit. The product was very little harder than the softest copper, and can be whittled with a knife.—Scientific American.

Memories of the Crowded City.

"This ark is terribly crowded with all these animals aboard," remarked Japhet. "Yes," replied Shem. "And it's lonely at that. It makes me think of one of those apartment houses where they let people have all kinds of pets and won't admit children."

OLD CLAY ESTATE DOOMED

LEXINGTON, Ky. — Picturesque

Ashland, the historic estate of Henry Clay here, is soon to be cut up and sold as building lots.

This beautiful estate, which has already been infringed upon by street and parks until it is not one-fifth its original size, is one of the few remaining shrines toward which pilgrims turn their steps and in which Kentuckians take pride.

Henry Clay once wrote to Denton "I love old Ashland, and all these acres with their trees and flower and growing grain lure me in a way that ambition never can."

The house, built by Clay when he came to Lexington from Virginia, always remains to him a beloved retreat from the cares and fatigue of his energetic political life. Set thick about with cedars and embowered with climbing ivy and clambering roses, the rambling old mansion opens its hospitable doors toward an avenue of stately locust trees planted by the hand of the great commodore himself.

It stands now as originally erected its main building, two and a half stories in height, flanked on either side by wings only one story high which are attached to the main building by a front. Its sloping lawns, sheeted with luxuriant blue grass, which used to be surrounded by a great woodland of ash, chestnut, oak and walnut trees, have now been greatly diminished and will soon have passed entirely out of existence.

On the death of Clay the estate passed into the hands of his son, James B. Clay, and was purchased on the latter's death by the Kentucky University. Since its reacquisition by the family it was partly torn down but was rebuilt on the same plan and with almost all the same material.

A portrait of the statesman, done by Matthew Jouett, the Kentucky artist, hangs in the hall and on the library shelves are hundreds of his books marked and dog-eared.

The house, which is still in the possession of Mrs. McDowell Clay, granddaughter, will continue to stand surrounded by asphalt streets and plain, square, brick residences or apartment houses.

Gone forever will be the woodland and the broad avenue of oaks, now over a hundred years old, which welcomed a distinguished visitor and sheltered him to the ever open doors of Ashland.—Montgomery Advertiser.

We Wash Cars—Frank P. Lide.

I Saw in the Paper.

"I have just learned of a new way to remove a scorch from linen," said the woman who studies the papers. "I'm always scorching mine; tell me about it," requested the woman who did not know.

"It is a little troublesome at first. You put two ounces of fuller's earth into a pan, add half an ounce of white soap, the juice of two large onions and half a pint of vinegar. You boil this together for a few minutes, then you put in a covered vessel for future use. When you have a scorch, you spread this mixture on it with a knife. Let it dry on the cloth and the stain will disappear."

We Wash Cars—Frank P. Lide.

NOTICE OF FINAL SETTLEMENT STATE OF ALABAMA, MORGAN COUNTY

Probate Court, July 21, 1919
Estate of Alexander B. Lampkin, Deceased.

Notice is hereby given to all interested parties that Mrs. Jennie S. Lampkin as Administratrix of the estate of Alexander B. L. P. TROUL, Judge of Probate.

HALE HAMILTON STARRED IN CLEVER METRO PLAY

"That's Good" to be Seen at the Delite Theatre Thursday.

"That's Good," adapted from the story of the same name by Richard Washburn Child published in the Saturday Evening Post, will be the attraction at the Delite theatre with Hale Hamilton, the Metro star, in the leading role.

The entertaining story is of a wise young man thought foolish by his neighbors because of his complacent outlook on life and of a young woman who, in her own opinion, is unusually clever and subtle. How unexpected adventures come up which turns the tables and makes the young man the wiser of the two is cleverly told in this alluring tale of love and adventure, the whimsical humor of which will appeal to all.

Mr. Hamilton is surrounded by a

cast of distinguished artists among whom are Stella Gray, Herbert Prior, James Duffy, Lewis Morrison, Marjorie Yeager and James McAndless. The picture was directed by Harry L. Franklin and produced under the personal supervision of Maxwell Karger, director general.

How Macaroni Got Name.

"The origin of macaroni dates back to one of the kings of Naples who constantly taxed the inventive power of his cook. One day a dish was put on the king's table, of which he highly approved, and upon inquiry as to the expense of the new dish, the cook mentioned a sum which in those days was thought high; whereupon the king exclaimed: "Bouni ma caroni." "Good but very dear." Hence the name.

Uncle Eben.

"Some men is so tremendous polite, no matter what happens," said Uncle Eben, "dat dey kinder gives you de notion dat mebbe dey's jes' a little bit deceitful."

Itching, Scratching, Skin Diseases That Burn Like Flames of Fire

Here Is a Sensible Treatment That Gets Prompt Results.

Eczema and similar skin troubles come from a disordered, impure condition of the blood, and they can only be cured by giving the blood a thorough cleansing, and removing from it all traces of impurity.

This is why S. S. S. has been used so successfully in hundreds of cases of Eczema and other skin

eruptions. This wonderful remedy is without an equal as a blood purifier, being probably the oldest blood medicine on the market. It has been sold by druggists for fifty years. Get a bottle today and begin treatment that will get results. You are invited to write to-day for complete and full advice as to the treatment of your own case. Address, Chief Medical Adviser, Swift Specific Co., Dept. 52, Atlanta, Ga.

Keep the egg-yield up as mercury goes down

Hens that pay are hens that lay winter and summer. Poultry raisers estimate that an egg in winter is worth double its value in the spring. You can get maximum winter results from your hens by feeding

Purina Chicken Chowder with Purina Scratch Feed

—the perfect balance for laying hens. Hens fed grain alone make excess yolks, which cannot be laid. Notice the unlad yolks in the next fat hen you dress. Corn, oats, barley, wheat, etc., are yolk forming and fattening feeds, and should be balanced with high protein ingredients to produce as many whites as yolks. Purina Chicken Chowder contains such white-forming ingredients as granulated meat, linseed meal, alfalfa flour, etc., that balance the grains in Purina Scratch Feed. When Purina Chicken Chowder is fed as directed with Purina Scratch Feed, we guarantee

More Eggs or Money Back.

Purina feeds are sold by

AUTO ACCIDENT RESULTS IN DEATH MRS. BART MOORE

PROMINENT IN CITY'S SOCIAL
LIFE AND ONE OF WACO'S
MOST BELOVED WOMEN.

(Waco Daily Times.)

Shock, resulting from an automobile accident, resulted in the death Wednesday evening of Mrs. Maria Louise Moore, wife of Bart Moore, Sr. The accident occurred as Mr. and Mrs. Moore were returning from the fish pond, in their car, small sedan, on the Crawford road, about three and a half miles west of Waco, at the west end of Rich field. Soon after the accident, Mrs. Moore was conveyed to Providence sanitarium, by Messrs. Ben Lee and Charles Boynton, who were returning to Waco, on the Crawford road, at the time. Mrs. Moore was dead when they reached the sanitarium, and it is believed that she died before she was removed from the wrecked car.

Mr. and Mrs. Moore, with Mr. and Mrs. L. C. Puckett and Mr. and Mrs. Charles Smith, were chaperoning a party at the fish pond, Mr. and Mrs. Moore leaving for home in advance of the others. Mr. Moore was driving the car. The lights on his car went out, and he was following a car, just a short distance ahead. There is a very sharp and dangerous turn at the place where the accident occurred, and in making the turn, Mr. Moore's car went off a culvert and into a ditch on the left hand side, which is about three feet deep. Mrs. Moore was removed from the overturned car as

soon as possible, and news of the distressing accident reached Waco soon after it occurred. Mr. Moore was not hurt.

The funeral of Mrs. Moore will not take place until next Saturday, the hour not having yet been determined. Mrs. Moore was married about 17 years ago to Bart Moore, Sr., in St. Paul's Episcopal church here, she having come to Waco, from her home in Alabama, to visit her brother here, the late Major Robert Donnell. There was in this city no woman more universally beloved and esteemed than Mrs. Moore, hence the news of her death came as a crushing blow to hundreds of friends here.

In all of the activities of Waco women, Mrs. Moore took a leading part. She was a regent of the Daughters of the American Revolution, and one of the leaders in the social service department of St. Paul's church, and during the time that the hostess house was maintained at Rich field she gave much of her time, together with other women of Waco, in the doing of those things that contributed so much to the pleasure and happiness of the soldier boys.

Just recently had Mrs. Moore accepted the position of woman chairman for the 1919 Cotton Palace, and her acceptance of this place brought the most sincere pleasure to the exposition directorate, for they realized that in Mrs. Moore there had been found a tireless worker, one who would utilize all of her energy, ingenuity and her never failing perseverance to make the woman's features of the Cotton Palace this year an unparalleled success.

In the social life of Waco, Mrs. Moore was justly recognized as a leader, and the Moore household, where this gracious woman reigned as queen, was synonymous of Waco's reputation for hospitality. In every opportunity afforded her as a church worker Mrs. Moore was untiring and eager to be of service. If there was in this city one woman more than another who derived unalloyed pleasure from being of service to others, that woman was Mrs. Moore.

It seemed part of her nature to bring joy and pleasure into the lives of others. She cared little for personal comfort and enjoyment so long as she was engaged in making others happy, and her sweet, gentle unobtrusive manner of doing things for others was one of the many characteristics of her innate goodness. Mrs. Moore was a firm, a most pronounced believer in the will of God. Ever an optimist, she could always see the rift in the clouds, the bright spot that would become apparent in God's own good time. In all of the lengthy connection of the Moore family here, there was none more universally loved than Mrs. Maria Louise Moore. A most highly cultured woman, the talents with which she was naturally endowed had been improved by the very best educational advantages, and these, added to the charm, the irresistible graciousness of a true daughter of the south, made her presence a benediction to a legion of friends and a host of recipients of her innumerable kindnesses and generosity.

Mrs. Moore had completed all arrangements for a visit to her former home in Alabama, and was to have left within the next few days.

Besides the bereaved husband and little daughter, Jane Dodd Moore, three step-children survive, Bart Moore, Jr., Waco; Adrian Moore, Wichita Falls, and Mrs. Seth Strong, Jr., Dallas. Two sisters and a brother live at the old home, Green Brier, Ala., Mrs. Will Hundley, Mrs. Octavia Carney and James Donnell. There are numerous nephews and nieces here and in other Texas cities. To all of the survivors there is extended the sympathy and condolence of a host of sorrowing friends.

Timely Warning.

A sturdy tramp went into a suburban garden where the lady of the house was occupied in attending to her flowers. He took no notice of her refusal to give him some coppers, but continued to annoy her until a large dog appeared, barking loudly. The lady seized his collar and held it, calling out: "You had better go; it may bite." "You ain't got no right to keep a savage dog," replied the tramp. "Perhaps I have not," she answered coolly. "If you think so, I won't keep him. I'll let him go!"

Business Courtesy.

A business man rises to welcome his wife or a woman friend or a woman relative who visits him at his office, but he does not rise to greet his stenographer or other woman employees. No business woman is justified in resenting this distinction. The custom cannot be construed to mean that the man does not respect his women employees highly. It simply means that in the business world, as nowhere else, women and men are all human beings working together, and on much the same plane of equality.

Thoughts Mightier Than Armies.

Ideas go booming through the world louder than cannon. Thoughts are mightier than armies. Principles have achieved more victories than horsemen or chariots.—Rev. Dr. W. M. Paxton.

Would Puzzle Socrates.

Were Socrates to come among us now he would probably want to know why Mexican poodles have no hair. Manx cats no tails, and pacifists no peace.

Captain Joe Woods Home on Furlough

Captain Joseph Woods arrived this morning from Camp Dix, N. J., for a fifteen days visit to his parents, Mr. and Mrs. F. A. Woods. At the expiration of his furlough Captain Woods will go to Camp Gordon to receive his discharge, after which he will return here to resume his position with the Morgan County National bank.

Captain Woods was adjutant of the unit to which Colonel Alvin C. York was attached and certified to the prisoners captured by the Tennessean. For the past four months he has been a student at Oxford.

Teeth to Blame.

The worst criminals seem to be the teeth. The Paris Medical takes a new fling at them, blaming them for sins usually charged to wronged, misjudged tuberculosis. "Baudé insists that with enlarged glands in the neck, the primary lesion should be sought in the teeth, before incriminating the tubercle bacilli, and urges that the physician should insist on the teeth being put in order as an indispensable element of whatever treatment he is instituting."

Novel Treatment.

A whirlpool bath is the novel treatment applied at a hospital in Manchester, England, for cases of rheumatism, following typhoid and dysentery. The tank, large enough for 12 men, contains 4 feet of water and is provided with seats on which the bathers are immersed to their necks. The temperature is kept at 93 degrees Fahrenheit, just below that of the body. The room is quiet and dimly lighted, and after an hour in the bath the men go to rest rooms.

Ornamental Trees.

As ornamental trees the Japanese and Chinese persimmons are entitled to high rank. When the trees are in full leaf they are handsome without other adornment. The trees loaded with orange and orange-red fruits are among the most striking objects in the garden. All thrive in California, and not elsewhere except in some southern states.

The Age of Retirement.

"Do you think a man has passed his usefulness when he is forty?" "It depends on circumstances. If he has accumulated enough money so that he can afford to be lazy, his usefulness may end even earlier."

Chic Tints in Teeth.

In Japan the professional beauty oves to appear with golden teeth; in India she prefers them stained red, but in certain parts of Sumatra no lady who respects herself would condescend to have any front teeth at all.—Rocky Mountain Herald.

Hardy Palm.

The hardest palm at all common is California's "Trachycarpus excelsus," known as the windmill palm. Not alone is it hardy in withstanding low temperatures, but it is tough and will endure rough treatment, but boxed it is not a success, say those who know.

Closing The Breach

In your tire with our up-to-date Vulcanizing process is like healing a wound in your body, and the way we do it—it stays sealed.

You can run your tire over the roughest cobble stones and treat it the same as you would a new tire, for it IS a new tire to all intents and purposes.

PHONE ONE-FORTY

It is satisfying to know that within two minutes after you call this number our service car will be on its way to help you out of any sort of difficulty.

Or if your trouble doesn't require an "ambulance call" bring your tire in and let us put it into shape.

If accessories are required, we have the best lines on the market. We have tested each one and put our personal recommendation behind them.

Population of the Earth.

In 1787 the population of the earth, according to Busching, was about 1,000,000,000; in 1800, according to Fabri and Stein, only 800,000,000; in 1833, according to Stein and Horschelmann, 872,000,000. In 1858 Dietrich estimated it at 1,260,000,000 and Kolb, in 1865, at 1,230,000,000. According to the latest calculations the earth is inhabited by 1,400,000,000 human beings.

Interesting Discovery.

The Roman occupation of Britain was recalled by a discovery a few days ago at Stalbridge. In working in his garden, a man found a skeleton. Examining it he found to be in a perfect state of preservation, the teeth being quite sound. The mouth was a coin bearing the inscription of Caesar Augustus.

"Perfection" Is Your Protection
(Look for the Label)

Like all manufacturers who have a pride in their product, we put our label on everything that comes from our factory.

We want the whole world to know where it comes from and that we are standing behind it with reputation and resources, wherever it goes.

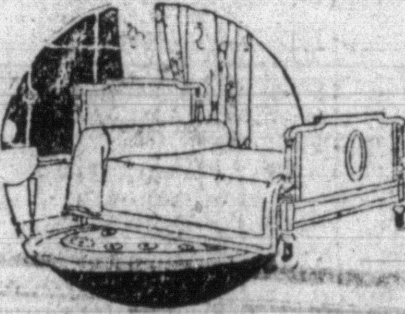

**Perfection-Made Mattresses and Springs
Mean "The Best Beds In the World"**

Perfection-Made Mattresses are clean through and through. There's not the tiniest particle of dirt beneath the ticking. No lumps because the high-quality cotton felt is as smooth as silk and its smoothness is supplemented by our patented process of manufacture.

A Perfection-Made Mattress yields to the curves of your tired body and lets you fade away to wholesome, refreshing sleep.

Perfection-Made Springs retain their resiliency because they are produced of the finest steel and accurately adjusted by skilled workmen.
